

AAa/e Foundation Annual Scholarship Fundraiser

Join us for an evening of food, drinks, and networking

Thursday, June 5th, 2014

6:00 – 8:30 PM

Metropolitan Water District Courtyard
700 N. Alameda St., Los Angeles, California 90012

Asian American Architects/Engineers Association (AAa/e) is committed to the empowerment of design professionals through personal growth, professional excellence, business development, and leadership. In an effort to enrich our student community, the Asian American Architects and Engineers Foundation was created in 2004 to provide networking opportunities and scholarships for students in Architecture, Engineering, and Construction.

Since its creation, Aaa/e Foundation has awarded over \$100,000 in scholarships. The scholarship awards we are able to provide are a direct result of the continued support we receive from the Architecture, Engineering, and Construction industry. For a video of past recipients, please visit the [AAa/e Foundation YouTube Channel](#).
