

Asian American Architects/Engineers Association Presents:

## The Regional Recycled Water Program – A New Source of Water for Southern California

Thursday, May 16, 2019, 11:30am-1:30pm

### Speaker:

**John Bednarski**, Chief Engineer and Manager of Engineering Services Group  
Metropolitan Water District of Southern California

### Program Description:

The Metropolitan Water District of Southern California and the Sanitation Districts of Los Angeles County have partnered to develop the Regional Recycled Water Program, which will create a new, sustainable water supply for Southern California. The program will start with a demonstration facility and could eventually become one of the largest advanced water treatment plants in the world. At full build-out, this \$3.4 billion project would include a 150-mgd advanced water treatment plant, pumping stations, and over 60 miles of conveyance pipelines. Come and learn about the project details, project status, and plans for implementation.
