### **About the Program:**

The construction industry experienced a massive expansion period over the past few years, on March 9th the COVID-19 pandemic slowed life down for millions of Americans. According to the Associated General Contractors of America (AGC) at least 45 percent of contractors are experiencing delays or disruptions related to the outbreak. Hear from the top General Contractors in Southern California on the current market conditions and how they are working to stay on top of the rapidly changing situation in order to ensure that employees are safe, projects continue to move forward and client's needs are met.
