About the Program:

The Healthcare Women in Construction program is geared towards recognizing and advancing women in leadership roles. The content aligns with AAa/e's mission to support, connect and promote diversity within the architecture, engineering, construction, (AEC) and related services industry. Our goal is to feature public and private agency clients, to expand our understanding of their roles in administration, operations, design, construction and the management of facilities. AAa/e is proud to be a part of shaping how women within our industry structure and manage personal and professional growth; garnering respect while mentoring others and setting themselves up for success. Join us as our clients share their experiences and provide information about their portfolio, market trends and their predictions for 2021.
