About the Program:

This program will feature individuals from Caltrans District 11 and SANDAG as they discuss multi-agency transportation construction projects in the region such as the Otay Mesa East Port of Entry, I-5 North Coast Corridor, SR-125 to SR-905 connectors, I-15 Managed Lanes, and more. The discussion will also celebrate their roles as women leaders in the industry by sharing success stories, insights on the future of the construction industry, and words of encouragement to inspire the next generation of women engineers. Join us for the next exciting chapter in our Women Leaders series.
