The Asian American Architects/Engineers Association (AAa/e) is proud to present our Annual 2017 Master Series: **Advancing Your Career – More Stories and Great Advice**

The Master Series provides “...a platform for empowering professionals working in the built environment in personal and professional growth, business development and networking, and leadership in our community.” (AAa/e Mission Statement)

The Masters Series provides a forum, where “Masters” in their respective field of the A/E/C community, can empower and inspire other professionals by sharing their personal stories and their path to success. Their testimonies span both personal and professional growth as these areas are often intertwined.

Come listen to 2 architects and 2 engineers (1 to be revealed) share their stories about the challenges they faced and how they dealt with those challenges – obstacles and successes.
